STATISTICS RELATED TO REGISTRATION

Registration V/s Participation

There were 287 persons registered to the quiz programme. In that 202 persons attended the Quiz.

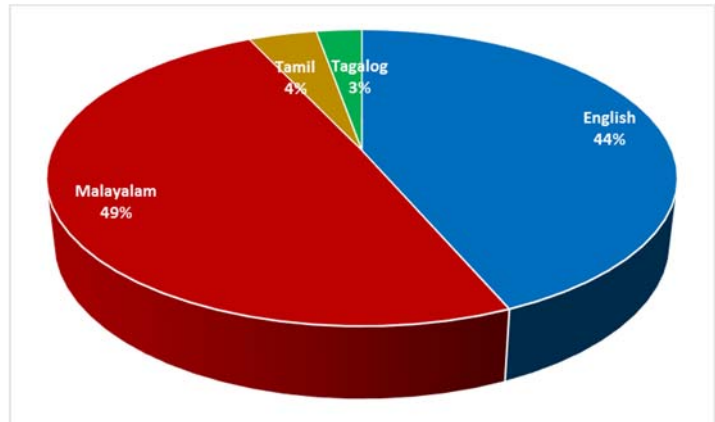

Detail	Nos.
Registration	287
Participated	202
% of Participation	70%

Registration by Language

49% of registration came from Malayalam Language. 44% registration came from English Language.

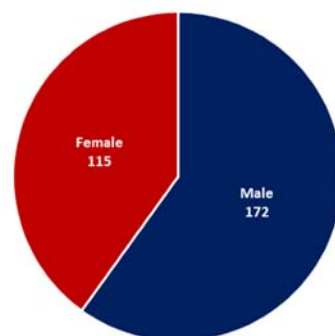

Language	Nos
English	125
Malayalam	142
Tamil	12
Tagalog	8

Registration by Gender

In this quiz, 60% of the registration from Male and 40% from Female.

Gender	Nos
Male	172
Female	115

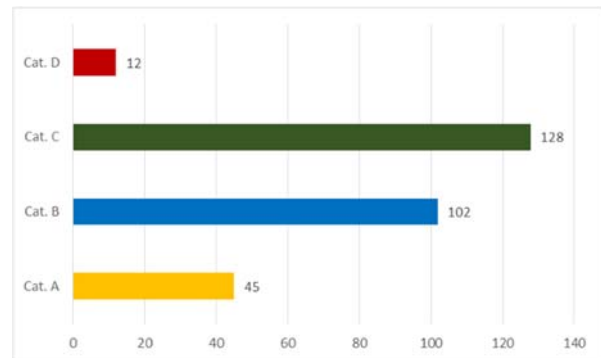

Registration by Age Category

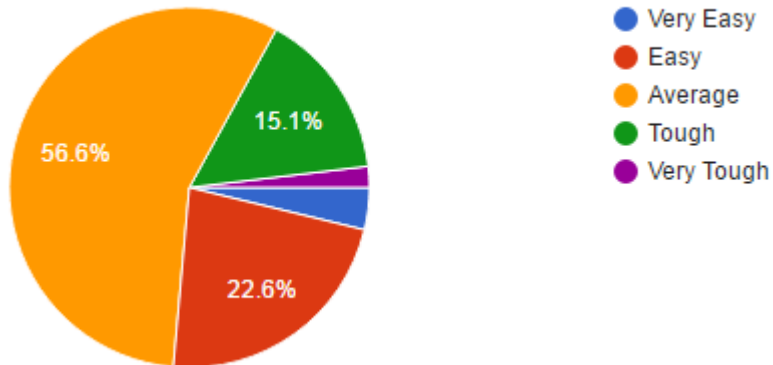

Persons in the age range from 36 to 60 registered (**44.50%**) more than other age categories .

Age Category	Nos
Cat. A (13-18)	45
Cat. B (19-35)	102
Cat. C (36-60)	128
Cat. D (Above 60)	12

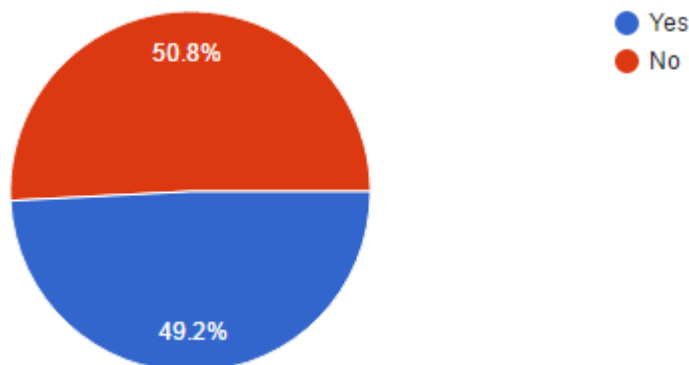

FEEDBACKS FROM PARTICIPANTS

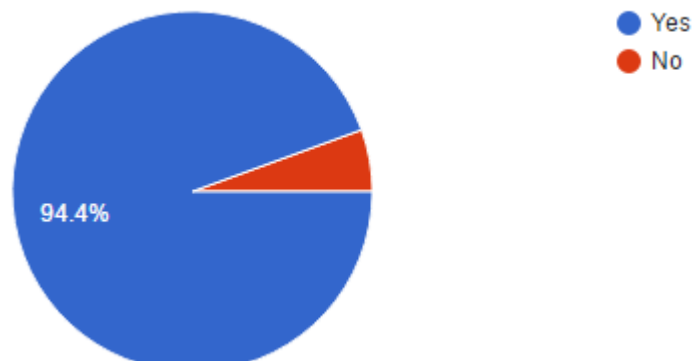

What is your opinion about questions?

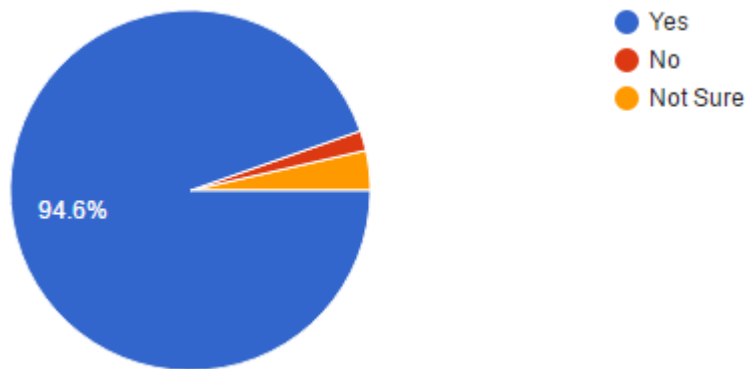

Have you ever read full content of the Holy Bible?

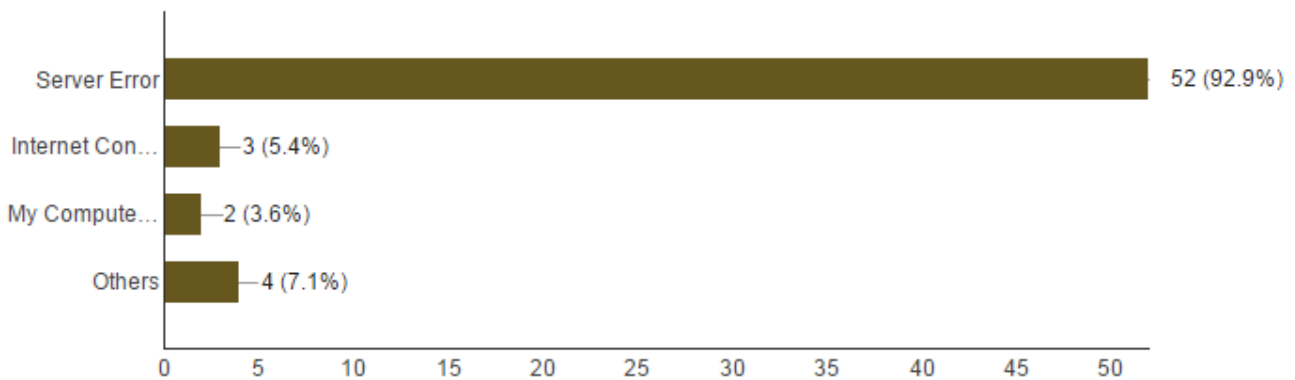

Did the programme inspire you to read the Holy Bible?

If we are conducting the second part of this Quiz, do you wish to participate?

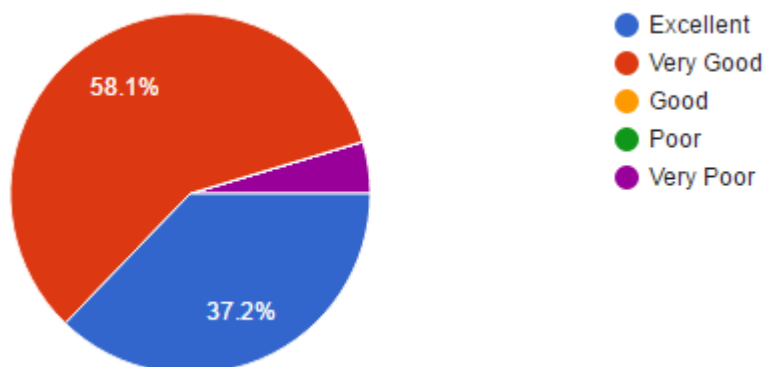

What was the problem you faced during Quiz?

NB: Sample taken from 57 persons

Overall Rating about the programme.

COMMENTS, SUGGESTIONS, CRITICISMS

Take care to avoid technical errors

I couldn't attempt the last 9 questions. I was getting the error try again. I had to log out and log in thrice to complete the Quiz program..

you have to find a solution for server problem and my answer was changing automatically whenever there is errors

Please try to fix the server error issues next time.. Bcz of this I couldn't answer so many questions correctly ..

Great effort by the organizers to make people read the bible. Motivated me to read our Lords word. Keep up the good work. One suggestion I would give is to make the correct version of the bible available in our church as the good news bible which I purchased from church doesn't seem to have covered all the areas of the quiz. Not sure where I could get the Catholic version. God bless you.

Conduct every month regularly

Please You can continue this quiz. thank you.god bless all team

Server problem was there. the answer also two three questions wrong. please check and correct it

I was not able to get into the quiz for some time . Getting a popup message too many connections. Once I started the quiz in between I was getting the same message. That really affects. If you are conducting season 2, I suggest conduct quiz on different dates I.e. for each category on different day or time. So that server problem could be avoided. Thank you

it will be better to give time slots for each languages

More time needed. Due to server error time was not sufficient to attend the full questions. Other wise it was very good.

Praise to Lord Jesus Christ! First of all thank you so much for providing us an opportunity to participate in the Quiz. It's very interesting and motivates people to read the Scripture more. Further it provides a platform to understand the truth of the scripture thus our Lord may come alive in our lives. Please note that I had some difficulty towards the end of the quiz, the answers that I chose were not recorded though they were answered in the prescribed time. It was showing the error "too many web connections". But that doesn't matter. Its not a matter of winning, its a matter of knowing the Word of the Lord far better. Thank you, in Christ Jesus, Joby George.

Pls have it regularly, may be once in 3 months

Was severe server problems; not loading pages and so many errors to difficult to finish all questions

I would like to bring your attention in two things; one is in the review option while answering, couple of questions I opted for review and after finishing the exam I changed to right answer but it didn't change. Second thing is that few questions I answered correct it became wrong after final upload. Pls check and rectify that error in future. Overall it is a good inspiring thing to read the Holy Bible. Thank you for your effort.

Appreciating your great efforts, I believe this will inspire many to read the Bible and will enhance understanding of the Holy Bible. Look forward to such programmes frequently

i think most of the participant had the same problem of login. instead of giving the same time for all, can give 5 to 10 minutes gap for different category.

Excellent job by you, it gives a boost to read the Holy Bible. Will continue to read and understanding it in depth. Look forward frequent such programmes. Should give chance for kids below 13 years. Excellent

You may conduct a rehearsal of the online quiz before actual test so as to avoid server problem.

Very interesting... to read and study The Bible too much.

efficiency of the server must be mounted high

Waiting for another quiz..I love it.more divine knowledge I gained when I went through again and again..thank you God bless u'll..

I must say that the Quiz was conducted in an brilliant manner, with a professional approach, The bible quiz questions were of good standard and had been prepared well. On many instances I had faced server issues and automatically logged out, during which a few minutes were lost. Time was a constrain as a few minutes were delayed in between due to the server error/high traffic. Thanks once again to the entire team and may God bless you. Looking forward to participate again in Season 2.

after submitting answers, many times the "page cannot displayed " message came and lost time in between and many answers which answered correctly were shown as "unasnswered" and many which I answered correctly shown wrong in the result. there is delays in displaying the next questions also.

There are many questions which I answered right were marked as unanswered. The website would suddenly go to dashboard or home. Login was difficult due to server.

Please think about to do an on ground quiz event in different levels i.e. church level & Nation level.

This way of conducting the Bible Quiz, I don't think it can help the age level. Better to call all the participants in one place and conduct the Quiz. Just like Logos Quiz.

Please improve server errors

The idea of conducting the online quiz is great. It makes me read the bible again with a target and gives me

a platform to know where I stand and what I would need to do to improve further and all at the comfort of your home. Thanks But regret to say the setup was not perfect. I had an initial problem getting connected as well as a number of times in between and when I did a refresh it would start all over again n hence losing out on the time and after completing the test I didn't find the submit button and when I tried to check the results I got the message as "there are no results to be shown as you have not attempted the test". Not sure where or what I have not done right.

Very good, Inspires people to read Holy Bible

the page got expired when I clicked start test at 8. I couldn't write the test and I felt so bad.

yes there was server issue and lost time . However when I checked for the results it showed all unanswered. very disappointing when I answered. Your team should know what best has to be done for the people who experienced server problem.

The style of questioning wasn't always clear, some of the questions asked things in too much detail (i.e. Which chapter and verse did this or that happen, etc. We are only laypeople, not deacons!). I feel the different sections should have been quizzed at different times. Overall I felt the quiz was only meant for Bible enthusiasts, and excluding the average reader.

First I thank for conducting this contest. my problem was I put correct answer but when I check after result some change . I don't know how it happen in between some error comes may be that is the problem .

Thank you JY for this great opportunity. Waiting for the second season!!

I started very late because of server error and I couldn't complete the answers, Around 80 questions answered and later time over. I want to know my mark for improving myself, If you can possible to send the mark to my email.

There was a serious network issue.(server problem). I almost lost around 15 -20 mins only because of that. .anyway it was a wonderful experience overall. I really appreciate the efforts all of you have put behind this. May our good Lord bless all of us!

When we select an answer to a question and then mark the same for review and say we were not able to review the same later due to lack of time- then you should ideally consider the selected answer . I think in this test you marked such questions as unanswered. On the whole it was a very good effort - both interesting and informative. Thanks and Keep it up!!

I think more participant, due to this server is down. we get only maximum 30 minutes. improve more capacity. best of luck to next programmer.

Have the test other than Friday and different days for different age group. That will help less load on the server

Sorry, I would rate it good. 1. Server Error was extreme and I lost 20 minutes of my total allotted time. Leaving hardly anytime for me to review my questions. 2. Some of the questions were not very specific.

For example Question 68. "For whom is the Kingdom of heaven? As per Mathew chp 5, it is poor in spirit as well as persecuted for righteousness sake. Both were in the options. I chose poor in spirit and got it wrong. Overall good job for the 1st time. And indeed I feel encouraged to read the Bible more. God bless u all.

I liked this quiz programme very much. This inspires me to read and study bible closely. But during examination, I had server problems due to too many connections, so had to refresh it many times. I wish to know when will be the next quiz programme.

I am so thankful for such an opportunity to study and attend bible quiz. I couldn't answer all the questions due to server error few times, so I had to start again from beginning all those times. Other than that it was such a good program. Thank u Jesus youth members.

the quiz is very tough, and interesting

It is better to conduct every month or quarterly. Anyway it is a good initiative.

We wish another suitable day and time for Bible Quiz. Most of us are busy in Friday with ministry prayer meetings and other activities.

We got the Server connected only after 20 minutes after getting connection there was lag in between

Server error should not occur in next time
